

# NF-112 Industrial Endoscope

- **【Plug and Play】** Easy to operate, you can use it immediately when it is powered on. No need to use your smartphone to connect the WIFI and no need to download any driver software. So you do not need to worry about dirtying your expensive phone at work.
- **【1080P and Big Screen】** 1080P HD Endoscope camera with a 4.3-inch color LCD screen that allows you more convenient to perform live analysis on your application area and to view HD photos and videos instantly. More clearly and troubleshoot the problem effectively.
- **【High-quality Snake Camera】** IP67 waterproof, six adjustable LED lights to ensure a clear image even under dark conditions. Long focal distance (1.6 inch-198 inch) makes inspections easier. 5M Semi-Rigid cable is both stiff and flexible. Rechargeable battery, a full charge can work up to 3-4 hours.
- **【Wide Application】** Inskam industrial Endoscope is excellent for inspection in pipes or areas that the naked eye is not viewable. It is widely used in car maintenance, mechanical inspection, pipe repair, household appliance inspection, house maintenance, wall structure inspection, sewer/ drain inspection, etc.
